

Management Report

for

Intermediate School District No. 917
Rosemount, Minnesota

June 30, 2017

THIS PAGE INTENTIONALLY LEFT BLANK

To the School Board and Management of
Intermediate School District No. 917
Rosemount, Minnesota

We have prepared this management report in conjunction with our audit of Intermediate School District No. 917's (the District) financial statements for the year ended June 30, 2017. We have organized this report into the following sections:

- Audit Summary
- Funding Public Education in Minnesota
- Financial Trends of Your District
- Legislative Summary
- Accounting and Auditing Updates

We would be pleased to further discuss any of the information contained in this report or any other concerns that you would like us to address. We would also like to express our thanks for the courtesy and assistance extended to us during the course of our audit.

The purpose of this report is solely to provide those charged with governance of the District, management, and those who have responsibility for oversight of the financial reporting process comments resulting from our audit process and information relevant to school district financing in Minnesota. Accordingly, this report is not suitable for any other purpose.

Malloy, Montague, Karnowski, Radosevich & Co., P.A.

Minneapolis, Minnesota
November 29, 2017

THIS PAGE INTENTIONALLY LEFT BLANK

AUDIT SUMMARY

The following is a summary of our audit work, key conclusions, and other information that we consider important or that is required to be communicated to the School Board, administration, or those charged with governance of the District.

OUR RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA AND *GOVERNMENT AUDITING STANDARDS*

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2017, and the related notes to the financial statements. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information to you verbally and in our audit engagement letter. Professional standards also require that we communicate to you the following information related to our audit.

PLANNED SCOPE AND TIMING OF THE AUDIT

We performed the audit according to the planned scope and timing previously discussed and coordinated in order to obtain sufficient audit evidence and complete an effective audit.

AUDIT OPINION AND FINDINGS

Based on our audit of the District's financial statements for the year ended June 30, 2017:

- We have issued an unmodified opinion on the District's basic financial statements.
- We reported no deficiencies in the District's internal control over financial reporting that we considered to be material weaknesses.
- The results of our testing disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.
- We reported no findings based on our testing of the District's compliance with Minnesota laws and regulations.

EXTRACURRICULAR STUDENT ACTIVITY ACCOUNTS

In accordance with Minnesota Statutes, the District's School Board has elected not to exercise control over the transactions of the extracurricular student activity accounts maintained at various district sites. Consequently, the cash receipts and disbursements of the District's extracurricular student activity accounts are reported in a separate set of financial statements, rather than being reported within the District's General Fund. We have issued an opinion on these separate financial statements, stating that they fairly present the cash balances and cash receipts and disbursements of these accounts as of and for the year ended June 30, 2017 on the cash basis of accounting. Our opinion was qualified for a limitation related to the completeness of cash receipts reported.

We reported one deficiency involving internal control over financial reporting for the District's extracurricular student activities that we consider to be a material weakness. The District reports student activities on a cash basis, and has not established procedures to assure that all cash collections are recorded in the accounting records.

We also issued a report on compliance with the Minnesota's Department of Education's (MDE) *Manual for Activity Fund Accounting*, in which we reported no findings.

OTHER COMMENTS AND RECOMMENDATIONS

The latest version of the *Manual for Activity Fund Accounting* included a change in how check requests must be prepared. Previously, check requests were to be signed by the activity advisor and a student representing the activity. Under the current manual, check requests must be prepared, and approved by the student representative, the advisor, and the building principal (or his/her designee). For elementary student activity accounts, the student representative approval is not required. Approval is evidenced by signatures. We recommend the District review the internal controls and procedures over extracurricular student activity accounts to allow future compliance for all recent changes and ongoing internal control and compliance requirements of the *Manual for Activity Fund Accounting*.

SIGNIFICANT ACCOUNTING POLICIES

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 of the notes to basic financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the fiscal year ended June 30, 2017. However, the District implemented the following governmental accounting standards during the fiscal year ending June 30, 2017:

- GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, which enhanced disclosures regarding investments.
- GASB Statement No. 82, *Pension Issues, an amendment of GASB Statements, No. 67, No. 68, and No. 73*, which addressed certain issues related to pension reporting and disclosures.

We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

CORRECTED AND UNCORRECTED MISSTATEMENTS

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Where applicable, management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management, when applicable, were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

ACCOUNTING ESTIMATES AND MANAGEMENT JUDGMENTS

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Special education state aid includes an adjustment related to tuition billings to and from other school districts for special education services, which are computed using formulas derived by the MDE. Because of the timing of the calculations, this adjustment for the current fiscal year is not finalized until after the District has closed its financial records. The impact of this adjustment on the receivable and revenue recorded for state special education aid is calculated using preliminary information available to the District.

The District has recorded a liability in the Statement of Net Position for severance benefits payable for which it is probable employees will be compensated. The "vesting method" used by the District to calculate this liability is based on assumptions involving the probability of employees becoming eligible to receive the benefits (vesting), the potential use of accumulated sick leave prior to termination, and the age at which such employees are likely to retire.

The District has recorded activity for other post-employment benefits (OPEB) and pension benefits. These obligations are calculated using actuarial methodologies described in Governmental Accounting Standards Board (GASB) Statement Nos. 45 and 68. These actuarial calculations include significant assumptions, including projected changes, healthcare insurance costs, investment returns, retirement ages, proportionate share, and employee turnover.

The depreciation of capital assets involves estimates pertaining to useful lives.

The District's self-insured activities require recording a liability for claims incurred, but not yet reported, which are based on estimates.

We evaluated the key factors and assumptions used by management to develop the estimates discussed above in determining that they are reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

We encountered no significant difficulties in dealing with management in performing and completing our audit.

DISAGREEMENTS WITH MANAGEMENT

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

MANAGEMENT REPRESENTATIONS

We have requested certain representations from management that are included in the management representation letter dated November 29, 2017.

MANAGEMENT CONSULTATIONS WITH OTHER INDEPENDENT ACCOUNTANTS

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

OTHER AUDIT FINDINGS OR ISSUES

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

OTHER MATTERS

We applied certain limited procedures to the management's discussion and analysis and the pension and OPEB-related required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the supplemental information and Uniform Financial Accounting and Reporting Standards Compliance Table accompanying the financial statements, which are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory and other information sections, which accompany the financial statements, but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

FUNDING PUBLIC EDUCATION IN MINNESOTA

Due to its complexity, it would be impossible to fully explain the funding of public education in Minnesota within this report. A summary of legislative changes affecting school districts and charter schools included later in this report gives an indication of how complicated the funding system is. This section provides some state-wide funding and financial trend information.

BASIC GENERAL EDUCATION REVENUE

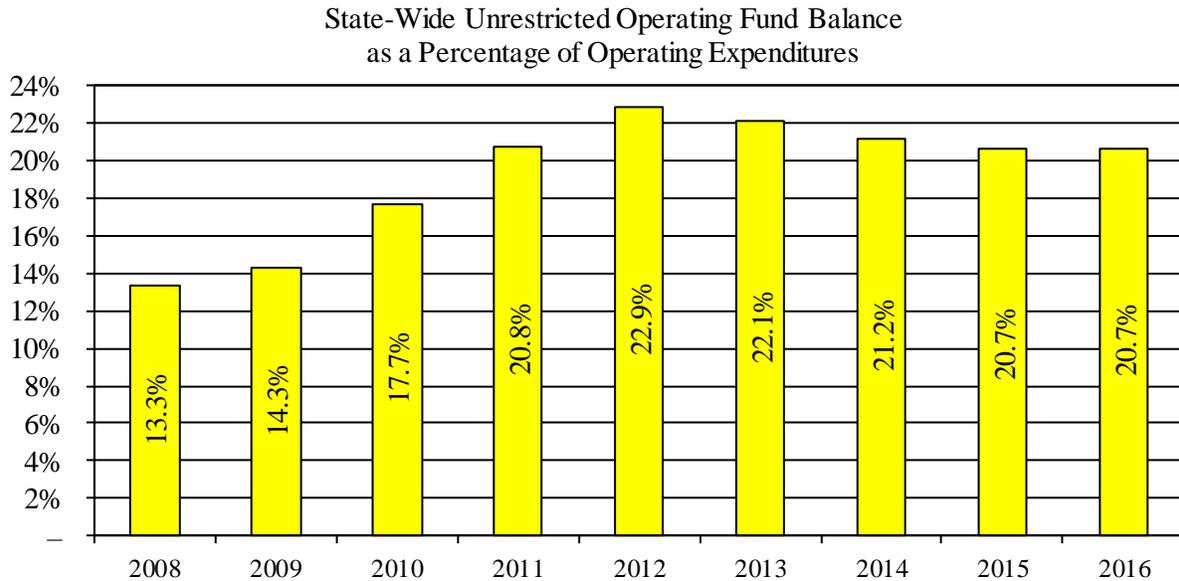

The largest single funding source for Minnesota school districts is basic general education aid. Each year, the Legislature sets a basic formula allowance. Total basic general education revenue is calculated by multiplying the formula allowance by the number of pupil units for which a district is entitled to aid. Pupil units are calculated using a legislatively determined weighting system applied to average daily membership (ADM). Over the years, various modifications have been made to this calculation, including changes in weighting and special consideration for declining enrollment districts.

The table below presents a summary of the formula allowance for the past decade and as approved for the 2018 and 2019 fiscal years. The amount of the formula allowance and the percentage change from year to year excludes temporary funding changes, the “roll-in” of aids that were previously funded separately, and changes that may vary dependent on actions taken by individual districts. The \$529 increase in 2015 was offset by changes to pupil weightings and the general education aid formula that resulted in an increase equivalent to approximately \$105, or 2.0 percent, state-wide.

Fiscal Year Ended June 30,	Formula Allowance	
	Amount	Percent Increase
2008	\$ 5,074	2.0 %
2009	\$ 5,124	1.0 %
2010	\$ 5,124	– %
2011	\$ 5,124	– %
2012	\$ 5,174	1.0 %
2013	\$ 5,224	1.0 %
2014	\$ 5,302	1.5 %
2015	\$ 5,831	2.0 %
2016	\$ 5,948	2.0 %
2017	\$ 6,067	2.0 %
2018	\$ 6,188	2.0 %
2019	\$ 6,312	2.0 %

STATE-WIDE SCHOOL DISTRICT FINANCIAL HEALTH

One of the most common and comparable statistics used to evaluate school district financial health is the unrestricted operating fund balance as a percentage of operating expenditures.

Note: State-wide information is not available for fiscal 2017.

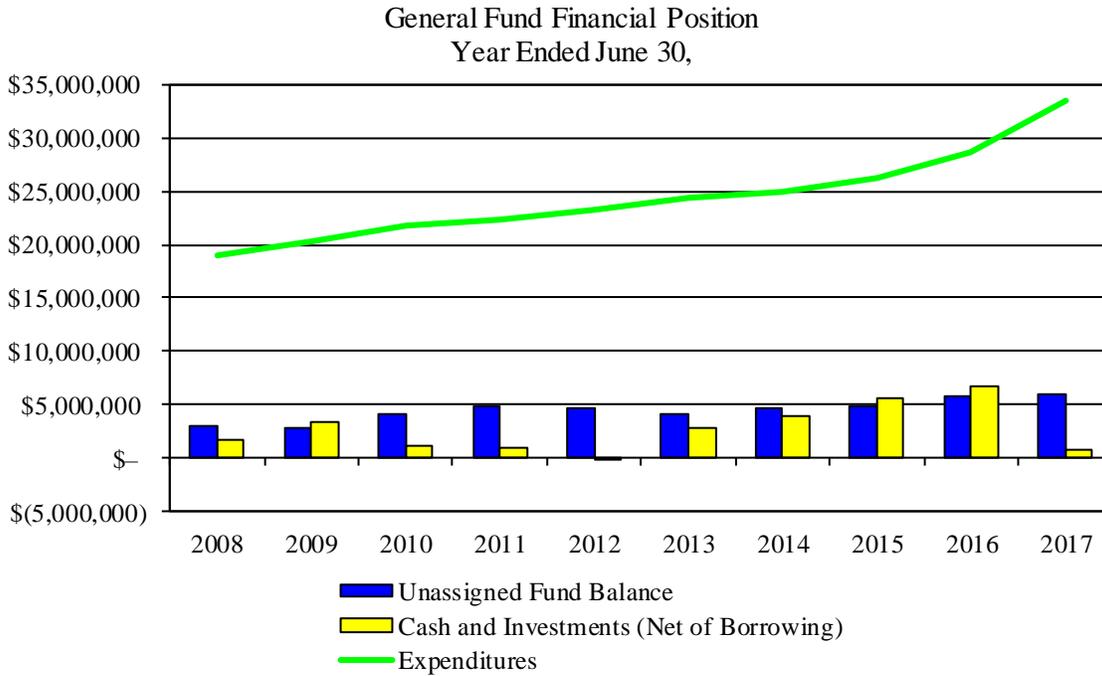

The calculation above reflects only the unrestricted fund balance of the General Fund, and the corresponding expenditures, which is the same method the state uses for the calculation of statutory operating debt. We have also included the comparable percentages for your district.

During the economic downturn that began in 2008, the average unrestricted fund balance as a percentage of operating expenditures maintained by Minnesota school districts increased, peaking at 22.9 percent at the end of fiscal 2012. This trend reflected districts' efforts to limit budget cuts, retain educational programs, and maintain adequate operating cash flow during a period of uncertain funding. As the state's economic condition improved in subsequent years, this ratio has gradually decreased, stabilizing at 20.7 percent for fiscal 2015 and fiscal 2016.

FINANCIAL TRENDS OF YOUR DISTRICT

GENERAL FUND FINANCIAL POSITION

The following graph displays the District’s General Fund trends of financial position and changes in the volume of financial activity. Unassigned fund balance and cash balance are two indicators of financial health, while annual expenditures are often used to measure the size of the operation.

The District ended fiscal year 2017 with a General Fund cash and investments balance of \$818,971 (net of borrowing and interfund receivables and payables), a decrease of \$5,890,264 from the previous year. This was mainly due to the increase in amounts due from the MDE for special education aid totaling \$5,415,802. This change is mainly the result of growth in the District and the changes made with the special education state aid formula and billing system the past two years. Unassigned fund balance at year-end was \$5,922,746, an increase of \$192,225.

The following table presents the components of the General Fund balance for the past five years:

	Year Ended June 30,				
	2013	2014	2015	2016	2017
Nonspendable fund balances	\$ 80,710	\$ 9,922	\$ 79,012	\$ 48,404	\$ 154,609
Restricted fund balances	1,430,576	1,414,463	1,390,688	1,377,634	880,523
Assigned fund balances	110,661	–	–	181,445	–
Unassigned	4,082,678	4,642,898	4,807,307	5,730,521	5,922,746
Total fund balances	\$5,704,625	\$6,067,283	\$6,277,007	\$7,338,004	\$6,957,878
Unassigned fund balances as a percentage of expenditures	16.8%	18.6%	18.3%	20.0%	17.8%
Cash and temporary investments (net of borrowing)	\$2,886,578	\$3,923,173	\$5,707,461	\$6,709,235	\$ 818,971

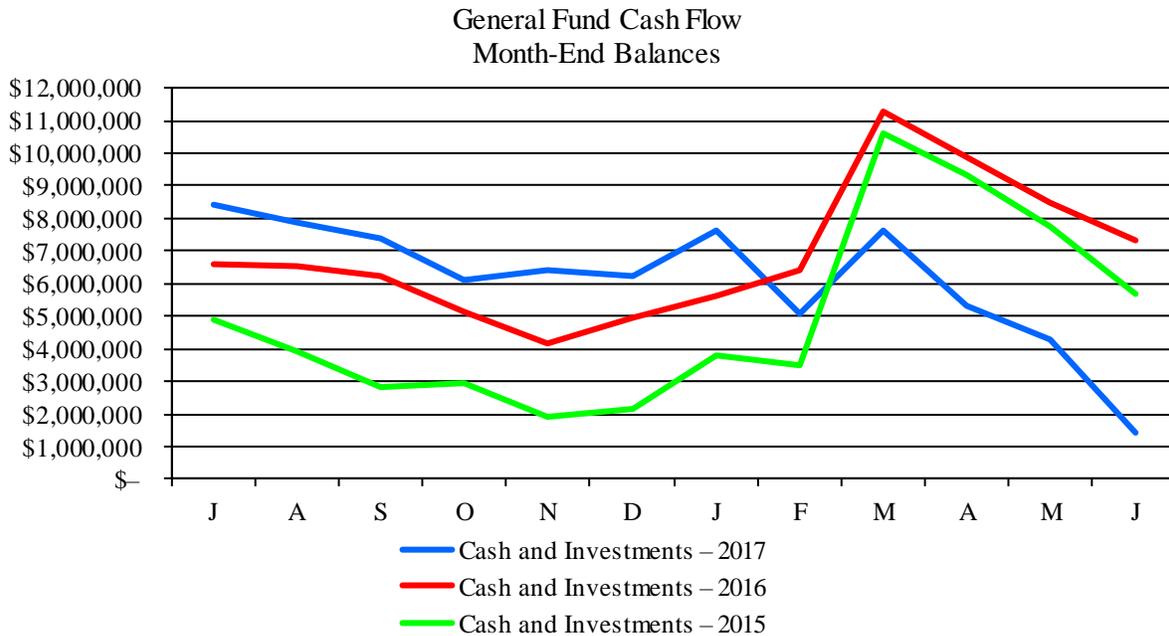

The resources represented by this fund balance are critical to a district's ability to maintain adequate cash flow throughout the year, to retain its programs, and to cushion against the impact of unexpected costs or funding shortfalls.

Fund balance as a percentage of expenditures is one key measure in assessing the financial health of the District. Maintaining an adequate fund balance is particularly important because of the limited availability of borrowing for the District and the need for the General Fund to be self-sustaining in its cash flow needs.

The fund balance remains healthy when compared to the level of District expenditures. The District's plan, based on the current fund balance policy, is to maintain a minimum unassigned General Fund balance of 15.0 percent of the annual budget. At June 30, 2017, the District has exceeded that policy with an unassigned fund balance as a percentage of 2017 expenditures of 17.8 percent.

GENERAL FUND CASH FLOW

The level of cash and investments varies considerably during the year, due to the timing of various revenues and expenditures. The following graph summarizes the level of cash and investments, including cash and investments held by trustee (net of short-term cash flow borrowing) over the past three years:

The graph above shows the peaks and valleys of the General Fund cash and investments balance (net of borrowing and interfund balances) on a monthly basis. The swing between its high and low month-end cash balances was about \$7.0 million for fiscal 2017.

GENERAL FUND OPERATIONS AND FINANCIAL POSITION BY ACCOUNT

The following tables present comparative operating results for some of the accounts of the District's General Fund:

Secondary Education Account

	Year Ended June 30,				
	2013	2014	2015	2016	2017
Revenue and other financing sources	\$3,823,175	\$3,391,004	\$3,279,549	\$3,452,295	\$3,384,163
Expenditures	4,135,016	3,471,081	3,381,889	3,246,387	3,401,719
Net change in fund balances	(311,841)	(80,077)	(102,340)	205,908	(17,556)
Fund balances					
Beginning of year	2,224,680	1,912,839	1,832,762	1,730,422	1,936,330
End of year	<u>\$1,912,839</u>	<u>\$1,832,762</u>	<u>\$1,730,422</u>	<u>\$1,936,330</u>	<u>\$1,918,774</u>

This account experienced a net decrease in fund balance of \$17,556 during fiscal 2017. This compares to a budgeted decrease of \$154,783. Revenues were over budget by \$16,406, mainly in state aid revenues, while expenditures ended the year lower than budget by \$120,821, mainly in purchased services.

Total revenue and other financing sources in the Secondary Education Account of the General Fund totaled \$3,384,163 for fiscal 2017, a decrease of \$68,132 from the previous year, due to a decrease in tuition revenue.

Special Education Account

	Year Ended June 30,				
	2013	2014	2015	2016	2017
Revenue and other financing sources	\$18,615,960	\$20,660,172	\$22,071,391	\$25,133,268	\$26,294,372
Expenditures and other financing uses	18,895,373	20,084,109	21,757,866	24,245,802	25,498,947
Net change in fund balances	(279,413)	576,063	313,525	887,466	795,425
Fund balances					
Beginning of year	2,604,413	2,325,000	2,901,063	3,214,588	4,102,054
End of year	<u>\$ 2,325,000</u>	<u>\$ 2,901,063</u>	<u>\$ 3,214,588</u>	<u>\$ 4,102,054</u>	<u>\$ 4,897,479</u>

This account experienced a net increase in fund balance of \$795,425 during fiscal 2017, which compares to a budgeted decrease in fund balance of \$34,925 for the year.

Special Education Account revenues and other financing sources increased \$1,161,104 in fiscal 2017. The District experienced an increase in enrollment in special education programs; in combination with an increase in state revenue sources through the tuition billing process. Expenditures and other financing uses increased \$1,253,145, mainly in salaries and benefits totaling \$1,018,777.

OTHER FUNDS OF THE DISTRICT

Internal Service Funds

The internal service funds are considered proprietary funds and are used to account for health and dental insurance offered by the District to its employees as a self-insured plan and post-employment employee benefits.

The following table presents comparative operating results for the District's internal service funds over the past five fiscal years:

	Year Ended June 30,				
	2013	2014	2015	2016	2017
Revenue	\$ 525,386	\$ 552,460	\$ 530,743	\$ 2,149,801	\$ 3,425,979
Expenses	519,904	411,914	554,121	1,627,900	3,255,326
Change in net position	5,482	140,546	(23,378)	521,901	170,653
Net position					
Beginning of year	<u>(507,118)</u>	<u>(501,636)</u>	<u>(361,090)</u>	<u>(384,468)</u>	<u>137,433</u>
End of year	<u>\$ (501,636)</u>	<u>\$ (361,090)</u>	<u>\$ (384,468)</u>	<u>\$ 137,433</u>	<u>\$ 308,086</u>

These funds experienced an increase in net position of \$170,653 during fiscal 2017. This occurred mostly as a result of the District's Internal Service Fund for self-insured health operating for a full fiscal year. Revenue and expenses were more than fiscal 2016, mostly for the Medical Self-Insurance Internal Service Fund, which was in its first full year of operations.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's financial statements include fund-based information that focuses on budgetary compliance, and the sufficiency of the District's current assets to finance its current liabilities. The governmental reporting model also requires the inclusion of two government-wide financial statements designed to present a clear picture of the District as a single, unified entity. These government-wide financial statements provide information on the total cost of delivering educational services, including capital assets and long-term liabilities.

Theoretically, net position represents district resources available for providing services after its debts are settled. However, those resources are not always in expendable form, or there may be restrictions on how some of those resources can be used. Therefore, this statement divides net position into three components: net investment in capital assets, restricted, and unrestricted. The following table presents a summarized reconciliation of the District's governmental fund balances to net position, and the separate components of net position for the last two years:

	As of June 30,		Increase (Decrease)
	2016	2017	
Net position – governmental activities			
Total fund balances – governmental funds	\$ 7,405,055	\$ 6,957,878	\$ (447,177)
Total capital assets, net of depreciation	6,944,495	9,327,146	2,382,651
Total long-term debt	(7,129,678)	(8,360,623)	(1,230,945)
Net pension-related liabilities	(15,744,788)	(22,745,589)	(7,000,801)
Internal Service Fund balance	137,433	308,086	170,653
Other items	(6,658)	(21,069)	(14,411)
Total net position – governmental activities	\$ (8,394,141)	\$ (14,534,171)	\$ (6,140,030)
Net position			
Net investment in capital assets	\$ 712,743	\$ 1,989,252	\$ 1,276,509
Restricted	849,779	252,691	(597,088)
Unrestricted	(9,956,663)	(16,776,114)	(6,819,451)
Total net position	\$ (8,394,141)	\$ (14,534,171)	\$ (6,140,030)

Some of the District's fund balances translate into restricted net position by virtue of external restrictions (statutory restrictions) or by the nature of the fund they are in (e.g., Food Service Special Revenue Fund balance can only be spent for food service program costs). The unrestricted net position category consists mainly of the General Fund unrestricted fund balances, offset against noncapital long-term obligations such as severance payable, compensated absences, OPEB, and pension liabilities.

Total net position decreased by \$6,140,030 in fiscal 2017. Net investment in capital assets improved as the District used assets restricted for debt service as part of a debt service refunding transaction. The District's unrestricted net position decreased by \$6,819,451, mainly due to changes in the District's proportionate share of the Public Employees Retirement Association and the Teachers Retirement Association pension obligations.

LEGISLATIVE SUMMARY

The 2017 legislative session established public education funding appropriations for the 2018–2019 fiscal biennium totaling \$483.3 million. The following is a brief summary of specific legislative changes from the 2017 session or previous legislative sessions impacting Minnesota school districts in future years.

Basic General Education Revenue – The 2017 Legislature approved annual increases of 2 percent to the basic general education formula allowance for the 2018–2019 biennium. The per pupil allowance will increase \$121 to \$6,188 for fiscal year (FY) 2018, and another \$124 to \$6,312 for FY 2019.

Compensatory Revenue – The \$5 million allocation for compensatory pilot grants in FY 2017 was permanently added to the allocation for regular compensatory revenue beginning in FY 2018. Beginning in FY 2018, a portion of compensatory revenue will be required to be used for extended time activities. The requirement will be 1.7 percent of total compensatory revenue for FY 2018, and 3.5 percent in FY 2019 and beyond.

Transportation Sparsity Revenue – Beginning in FY 2018, transportation sparsity revenue increases annually by 18.20 percent of the difference between 1) the lessor of a district’s actual regular and excess transportation costs for the previous fiscal year, or 105.00 percent, of those costs for the preceding year, and 2) the sum of 4.66 percent of the district’s basic transportation revenue, transportation sparsity revenue, and charter school transportation adjustment for the previous year. For charter schools, the adjustment to transportation sparsity is equal to the applicable school district’s per pupil adjustment.

Early Learning – The Legislature made a number of changes to early learning programs, including appropriating funding of \$71.75 million for the 2018–2019 biennium. Other changes include:

- The creation of a new School Readiness Plus (SR+) program for FY 2018 and FY 2019 only, with the following student eligibility requirements:
 - A child who is four years of age as of September 1, and who demonstrates one or more risk factors is eligible to participate in the program free of charge,
 - A child who is four years of age as of September 1, and who does not demonstrate any risk factors is eligible to participate on a fee-for-service basis, and
 - A district must adopt a sliding fee schedule for students not demonstrating risk factors, but must waive the fee for students unable to pay.
- Changing the Voluntary Pre-Kindergarten (VPK) cap from a limit on the total state aid entitlement to a limit on the number of participants, as follows:
 - A combined cap of 6,160 participants for VPK and SR+ for FY 2018,
 - A combined cap of 7,160 participants for VPK and SR+ for FY 2019, and
 - A cap of 3,160 participants for VPK for FY 2020 and later (SR+ program sunsets).
- All applications submitted in January to renew an existing FY 2017 VPK program will be funded first (3,160 slots). Applications for expanded VPK programs, and new VPK or SR+ programs will be ranked and approved based on various criteria. The number of new participants allowed in each new or expanded program will depend on how the programs are ranked.

Long-Term Facilities Maintenance Revenue – Beginning in FY 2017, deferred maintenance, health and safety, and alternative facilities programs were rolled into a new long-term facilities maintenance revenue program. Revenue for FY 2017 was \$193 per adjusted pupil unit (APU); multiplied by the lessor of one, or the ratio of the district’s average building age to 35 years. Funding will increase to \$292 per APU for FY 2018 and \$380 per APU for FY 2019, multiplied by the same building age factor.

Home Visiting Revenue – For FY 2018 (Pay 17 tax levy), home visiting program revenue is increased from \$1.60 to \$3.00, multiplied by the population under age 5 residing in a district on September 1 of the last school year. The levy will be equalized using a factor of \$17,250 per APU.

Debt Service Equalization – Beginning in FY 2018, the equalizing factors for debt service levies are indexed at 1) Tier 1 – the greater of \$4,430, or 55.33 percent, of the state average adjusted net tax capacity per APU, or 2) Tier 2 – the greater of \$8,000, or 100 percent, of the state average adjusted net tax capacity per APU.

Procedural Changes or Clarifications Related to Funding –

- Operating referendum notices can be delivered by any type of mail, no longer required to be by first class mail.
- For nonpublic pupil aid the definition of “textbook” is modified to include an online book with an annual subscription cost and the definition of “software or other educational technology” is modified to include registration fees for online advanced placement courses.
- Charter schools are allowed to include students participating in postsecondary enrollment options in their pupil count for generating building lease aid.

Payments to Nonoperating Funds – Beginning in FY 2018, the payment schedule for state aids for nonoperating funds (e.g., debt service equalization) has been changed from 12 monthly installments throughout the fiscal year to six monthly installments from July through December.

Nutrition Contracts – The Legislature amended the law governing school district contracts to provide for an exception to the requirement limiting school district contracts to two years, with an option for an additional two years. A contract between a school board and a food service management company that complies with Code of Federal Regulations, Title 7, Section 210.16, may be renewed annually after its initial term for not more than four years.

School Building Bond Agricultural Tax Credit – Effective for taxes payable in 2018 (FY 2019), a property tax credit on all property classified as agricultural (excluding the house, garage, and one acre of an agricultural homestead) is provided equal to 40 percent of the tax on the property attributable to school district building bond levies.

Lead in School Drinking Water –

- Requires the commissioners of health and education to develop a model plan to test for lead in school drinking water.
- Requires school districts and charter schools to adopt the model plan or an alternative plan to test school water for lead at least every five years.
- A school district must begin testing by July 1, 2018 and complete testing for all schools within five years.
- Allows school districts to include lead testing and remediation in their 10-year facilities plans and to use long-term facilities maintenance revenue for lead testing and remediation.
- Requires school districts and charter schools to make lead testing results available to the public and to notify parents that this information is available.

Review and Comment – Directs the commissioner of education to include comments from district residents in the review and comment on capital project proposals. School boards are required to hold a public meeting to review the commissioner’s review and comment on a proposal before the bond election.

ACCOUNTING AND AUDITING UPDATES

GASB STATEMENT NO. 75, *ACCOUNTING AND FINANCIAL REPORTING FOR POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS*

The primary objective of this statement is to improve accounting and financial reporting by state and local governments for post-employment benefits other than pensions (other post-employment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This statement replaces the requirements of GASB Statement Nos. 45 and 57. GASB Statement No. 74 establishes new accounting and financial reporting requirements for OPEB plans.

This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. This statement is effective for fiscal years beginning after June 15, 2017. Earlier application is encouraged.

Similar to changes implemented for pensions, this statement requires the liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

GASB STATEMENT NO. 83, *CERTAIN ASSET RETIREMENT OBLIGATIONS*

At times, state and local governments are required to take specific actions to retire certain tangible capital assets, such as the decommissioning of nuclear reactors, removal and disposal of wind turbines in wind farms, dismantling and removal of sewage treatment plants, and removal and disposal of x-ray machines. Obligations to retire certain tangible capital assets also arise from contracts or court judgments. Accounting and financial reporting standards exist for costs of the closure and post-closure care of municipal solid waste landfills, but those standards do not address retirement obligations associated with other types of tangible capital assets.

This statement addresses accounting and financial reporting for certain asset retirement obligations (AROs) that were not addressed in GASB standards by establishing uniform accounting and financial reporting requirements for these obligations. An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this statement. The requirements of this statement are effective for reporting periods beginning after June 15, 2018.

GASB STATEMENT NO. 84, *FIDUCIARY ACTIVITIES*

This statement is intended to enhance consistency and comparability of fiduciary activity reporting by state and local governments. It is also meant to improve the usefulness of fiduciary activity information primarily for assessing the accountability of governments in their roles as fiduciaries.

This statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. The requirements of this statement are effective for reporting periods beginning after December 15, 2018.

GASB STATEMENT NO. 85, *OMNIBUS 2017*

The objective of this statement is to address issues that have been identified during implementation and application of certain GASB statements. The statement addresses a variety of topics, including issues related to blending component units, goodwill, fair value measurement and application, and post-employment benefits (pensions and OPEB). The statement is meant to enhance consistency in the application of recent accounting and financial reporting standards. The requirements of this statement are effective for reporting periods beginning after June 15, 2017.

GASB STATEMENT NO. 86, *CERTAIN DEBT EXTINGUISHMENT ISSUES*

Current GASB guidance requires that debt be considered defeased in substance when the debtor irrevocably places cash or other monetary assets acquired with refunding debt proceeds in a trust to be used solely for satisfying scheduled payments of both principal and interest of the defeased debt. This new standard establishes essentially the same requirements for when a government places cash and other monetary assets acquired with only existing resources in an irrevocable trust to extinguish the debt.

The primary objective of this statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The requirements of this statement are effective for reporting periods beginning after June 15, 2017.

GASB STATEMENT NO. 87, *LEASES*

A lease is a contract that transfers control of the right to use another entity's nonfinancial asset as specified in the contract for a period of time in an exchange or exchange-like transaction. Examples of nonfinancial assets include buildings, land, vehicles, and equipment. Any contract that meets this definition should be accounted for under the leases guidance, unless specifically excluded in this statement.

Governments enter into leases for many types of assets. Under the previous guidance, leases were classified as either capital or operating depending on whether the lease met any of four tests. In many cases, the previous guidance resulted in reporting lease transactions differently than similar nonlease financing transactions.

The goal of this statement is to better meet the information needs of users by improving accounting and financial reporting for leases by governments. It establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. This statement increases the usefulness of financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

To reduce the cost of implementation, this statement includes an exception for short-term leases, defined as a lease that, at the commencement of the lease term, has a maximum possible term under the lease contract of 12 months (or less), including any options to extend, regardless of their probability of being exercised. Lessees and lessors should recognize short-term lease payments as outflows of resources or inflows of resources, respectively, based on the payment provisions of the lease contract. The requirements of this statement are effective for reporting periods beginning after December 15, 2019.
