**3:00 – 4:00 PM**  
**Google Hangouts**  
**Health, Wellness and Safety Committee**

**Present:** Melissa Schaller, Brian Plautz (MN Comp Advisor), Amy Alexander, Linda Berg, Melissa Ho, Joan Kraft, Paul Landwehr

**Absent:** Scott Zehnder, Ann Staples, Lauren Kelly, Don Budach, Lynda Hurt, Mark Zuzek, Lori Berdahl, Brianna Baker

**OSHA, Work Compensation Update** – Amy reported. 25 reports, which incident and doctor visits. Five went on to work comp. 18 involved students.

**Online Training – SafeSchools** – Linda reported. As of today 16 staff have not completed their trainings. New this year are optional COVID courses and many paras are taking health courses in first aid, asthma awareness, CPR, etc. All staff were also assigned defensive driving since staff were driving more to deliver assignments, etc.

**Nurses update:** Very busy with contract tracing, two out of five 917 nurses are either in quarantine or isolation. Very hard to do your job when most of the time is spent on COVID issues.

**Summary from Melissa Schaller on sites:** Cedar school is fully quarantined, two classrooms at Lakeville North High School also quarantined, DASH programs at Henry Sibley High School and Pinecrest Elementary are quarantined, and today Concord Education Center had a positive staff and possible student with COVID. For Friday, November 13, we will try to quarantine these two classrooms at CEC. Very concerned about ability to operate safely with appropriate number of staff. May be switching over the weekend.

Joan – McGuire is also in distance learning because of staffing. Case counts today were 49. Projected over 75 next week. Cases per 10,000 in Dakota County.

Options Educational site in Burnsville had a positive student with COVID. Students are in close contacts during lunch so the educational 917 part did shut down. Options day treatment is still going on. Distance learning now for Options Educational part. Students still go into the building for day treatment and then transported back home.

Future issues you may need to think about should include ergonomics.

Meeting adjourned at 3:17 PM.

**Next Meeting**
