# Fact Strategy Activities

## Multiplication

| Pull out 20 fact cards and sort them into 2 piles: Even Products and Odd Products | Pull out 10 fact cards. Put their products in order from smallest to largest. | Choose a fact card and write a story problem to match it. Draw a picture to match the story. **For example:** 5x2
There were 5 children. Each child had 2 balloons. How many balloons were there in all? |
|---|---|---|
| Pull 2 fact cards. Write a comparison sentence using the two facts. Repeat 5 times. **For example:** 3x5 > 4x3 | Pull out 10 fact cards and draw an array to represent the fact. **For example:** An array for 3x4 looks like

```
● ● ●
● ● ●
● ● ●
```
| Pull out 10 fact cards and draw a picture to represent the product. **For example:** 3 x5 is 3 groups of 5

```
