RE: Fee Acceptance – Consultant Design Services for the Renovation of Behavior Management Resource Rooms - Various Schools

On June 13, 2000, the Board of Education granted approval for the Department of Physical Facilities to enter into negotiation with KCI Technologies to provide mechanical/electrical design services on an “on-call” basis. At this time, the Department of Physical Facilities requests approval to utilize the services of KCI Technologies to prepare design documents and construction plans for the mechanical and electrical portions of the planned renovation to the behavior management resource rooms at nine schools. These renovations will include modifications to walls, ceiling, and doors as well as the electrical, heating, and ventilation systems. The Department of Physical Facilities has negotiated a fee of \$24,745.19 to provide the necessary mechanical and electrical design services.

At this time, we request approval of the negotiated fee with KCI Technologies in the amount of \$24,745.19 to provide mechanical/electrical design services associated with the renovations of the behavior management resource rooms at nine schools. Funding for these services is available from Capital Budget Project #666 – Alterations/Code Updates/Restorations
