Fee Acceptance - Design Services for Stage Lighting Replacement at Dundalk Middle School.

## Appendix I

### **Recommendation for Fee Acceptance – Design Service for Stage Lighting Replacement at Dundalk Middle School March 26, 2002**

The Fiscal Year 2002 State of Maryland QZAB Program includes funding for the replacement of the original stage lighting, curtains, and rigging system at Dundalk Middle School. In addition, this funding will include refinishing the existing stage floor and furnishing a chairlift to provide an accessible route to the stage. In order to complete this project, the Department of Physical Facilities will utilize the services of a consultant to perform the necessary engineering and design work.

On June 13, 2000, the Board approved the selection of James Posey Associates, Inc. as an on-call mechanical engineering consultant. The Department of Physical Facilities has negotiated a fee of \$28,125.00 for consultant engineering services. These services will include investigation of the existing conditions, preparation of schematic/design development documents, construction documents, construction administration, and assistance in the bid phase.

At this time, the Department of Physical Facilities recommends acceptance of a negotiated fee of \$28,125.00 with James Posey Associates, Inc. for engineering services for the stage lighting replacement project at Dundalk Middle School. Funding for services is available in the Operating Budget of the Office of Engineering and Construction.

Approved:

  
Donald R. Krempel, Ph.D.  
Executive Director
