

Staying Connected when Absent

The following contains information to help students stay connected to HMS when they are absent.

When students are absent from school they will have access to classroom resources, lessons, and their assignments through Schoology. Additionally, we will be providing support through optional check-ins on Google Meet.

Schoology

To access classroom materials in Schoology, please log in using the BCPS provided user name and password. Lesson folders will appear under individual classes and are in chronological descending order with the most recent work at the top.

GREEN folder - current lesson students should be working on

YELLOW folder - lessons within the 2-week deadline which are late but may still be completed.

RED folder - closed to submissions because the 2-week deadline has passed

WHITE folder – news and Information

BLUE folder – helpful resources

Google Meet

To access Google Meet, please visit meet.google.com. Students will need to be logged into Google using their BCPS log in and password.

CHECKINBULLS is available from 7:40-8:25am daily. The purpose of this virtual meeting will be to check in and lend support to your student. If your student needs help with a particular assignment, getting organized, or just wants to see a friendly face from school, they are invited to log on with us.

Content Specific Support is available throughout the week. These are optional daily google meets for students who have questions related to each content area. Students are not required to log in when absent, however they may log in if they have a content specific question. Any teacher in the content area can support students. See the attached chart with for meet codes and times.

**Please note that due to privacy concerns, we are not able to share with teachers the reason why a student is absent. If you would like to share the reason (and/or length of time) that your student is absent, you are encouraged to contact the student's teachers via email or Schoology. Please contact Nurse Kernan at pkernan@bcps.org if your student will be absent for an extended time or if they have been diagnosed with COVID or are a close contact to someone with COVID.
