## The Process

At the June 24, 2021 work session the school board approved the committee structure below.

The steering committee will be made of 36 people. The committee will include:

- 3 Board of Education Members
- 5 building administrators (1 from each building)
- 2 central office administrators (Superintendent, Assistant Superintendent)
- 5 teachers (1 from each building)
- 10 parents (2 from each building)
- 5 Community Members
- 2 high school students
- 1 administrator or teacher from Alpha
- 1 administrator or teacher from Early Childhood
- 1 parent from Alpha
- 1 parent from Early Childhood

The committee first met to review the existing CSIP and then developed the focus areas. A survey was sent to parents and was made available on the district website for any patrons of the district to complete. The next meeting the committee divided up into subcommittees and reviewed the information from the survey. Using this information, the subcommittees developed goals for each focus area. Administration then reviewed the goals and created action steps. Progress for each goal will be reported to the board of education each January.
