

Spreading the Love and Warmth

P-Jammin For Kids

For many children, holidays, special occasions and even birthdays are spent in the hospital as they fight an unseen menace, cancer.

In an effort to bring smiles to the faces of these brave warriors, and in honor and memory of Ava Sophia Leukemia Warrior, and the many other Jacksonville students who have spent time at Hopkins and other area hospitals, soft, cozy "NEW" PAJAMAS are being collected for the pediatric oncology patients at Johns Hopkins Hospitals.

Sizes birth through adult are needed as young people in their 20's are also treated in pediatrics. Kids sizes 7-16 are in need as well. Please no "footed" jammies for infants and toddler as little toes often wear a pulse ox to monitor oxygen levels.

Because nights in a hospital can be lonely and scary, Glow Animals are also being collected to light up the darkest nights. FAO Schwarz has a great line of Glow Animals found at Target that could also be donated.

*So many families will be grateful for your generous donations. The P-JAMMIN for KIDS program will run until **February 23rd**. Special bins will be set up at school for your donations. If you have any questions, please don't hesitate to contact*
