### ECO-CADETS

Open to Rising 6th Graders

Campers will engage in a variety of ecological activities including: testing water quality, kayaking, and environmental stewardship.

Available sessions  
A, B, or C

### PPS Oyster Project

Open to Rising 6th Graders

Campers explore the importance of oysters and restoring of their populations in the Chesapeake Bay Watershed. Click here for registration requirements.

<http://bit.ly/3rKwlyy>  
2 week duration  
D/E

### Drone Squad

Open to Rising 7th Graders

Campers will learn to fly and code drones while participating in challenging obstacle courses with fellow campers. They also explore the many different uses of drones in research and industry.

Available sessions  
A, B, or C

### PPScoders

Open to Rising 5th, 6th, and 7th

Campers learn the basics of computer coding, develop programs, and explore career opportunities as they see real programmers in action.

2 week duration  
A/B or C/D

### CAMP ? ANSWER

Open to Rising 8th Graders

Students will explore real-world environmental concerns and find innovative ways to solve them. This summer's focus is the Beyond the Water Bottle: Microplastic Pollution Challenge.

2 week duration  
A/B or C/D

Open to Rising 7th & 8th Graders  
Become a space flight expert!

Come explore the engineering challenges of space flight! You will apply your skills as a Kerbalonaut, working with 3D printed parts and designs. Camp location off site.

Special Session Dates:  
June 27 - 30 &  
July 5-7

Registration

All camps are funded through a unique partnership with Portsmouth Public Schools, community organizations, and STARBASE Victory, Inc., a 501(c)(3) non-profit. Find out how you or your organization can support by [visiting our website](http://www.starbasevictory.org).
