Academy of Arts, Multimedia, & Communications

This academy offers specialized pathways in:

**Fine Arts** – provides opportunities for students to develop 2-dimensional and 3-dimensional works through a variety of traditional, non-traditional, and digital mediums. Courses such as photography, clay, and AP studio are designed to develop design thinking, personal voice, and media techniques.

**Interactive Media Production** *‡ - provides students with experiences in Web site development, internet technology, computer graphics, digital media and entertainment production, and project management. Students develop skills in photo/video imagery, animation, non-linear video editing, Web page design, basic game development, and mobile/handheld application development. Students complete a professional portfolio which can be used to apply for advanced/continuing education programs and employment. Students may also earn industry certification in Adobe® Creative Suite® and Web design.

**Journalism/Communications** – provides students with a strong foundation in journalism and public speaking, with opportunities for in-depth study of broadcast journalism, technical writing, media broadcasting and editing, advertising, film analysis, public relations, and desktop publishing.

* Articulated college credit may be earned from the Community College of Baltimore County.

‡ Students may earn a minimum of four MSDE Career & Technical Education (CTE) credits for graduation.
