International Baccalaureate Primary Years Programme (IB PYP)

As part of the internationally recognized International Baccalaureate Primary Years Programme, students increase awareness of diverse cultures and become more internationally minded through the rigorous inquiry-based study of six transdisciplinary themes. These themes are embedded in all content areas and universally applied to all cultures, encouraging students to make sense of the world around them through first-hand experiences. Students engage in action-based research projects that enhance their global awareness, as well as participate in communicative development of the French language at Wellwood International and the Spanish language at Woodmoor Elementary.
