Mathematics, Science, and Engineering*‡

This program provides students with a highly competitive college preparatory program, offering challenging courses of study at the gifted and talented level in the fields of mathematics, science, and engineering. Using Project Lead The Way’s engineering curriculum, students are introduced to the scope, rigor, and discipline of engineering and engineering technology.

* Articulated college credit may be earned from the Community College of Baltimore County.

‡ Students may earn a minimum of four MSDE Career & Technical Education (CTE) credits for graduation.

Woodlawn High School Center for Math, Science, and Engineering
1801 Woodlawn Drive
Baltimore MD 21207
443-809-1309
