February 2022

Dear Education Partners:

Despite the continuing challenges and uncertainties of the COVID-19 pandemic, Baltimore County Public Schools’ (BCPS) commitment to supporting every student has only strengthened. Our staff remains committed to successful academic engagement with students in the classroom and virtual learning environments. BCPS strives to support our students and families academically, socially, and emotionally through this continuing crisis.

Our commitment to providing every student with the highest quality, 21st-century education has not wavered. The BCPS strategic plan, The Compass: Our Pathway to Excellence, aligns academic and business decision-making for our system with core values focused on our commitments to learning, equity, growth, and success.

Student accountability is vital to ensure all school facilities have the staff and resources necessary to function as safe, effective, and efficient learning environments. This annual Students Count report provides a foundation from which we may examine and make informed decisions. It contains enrollments, enrollment projections, utilization data, and thematic maps for all our schools, centers, and programs.

BCPS collaborates with the Baltimore County Government and the Sage Policy Group, Inc. to ensure accurate and continuous improvement in the projection process methodology. Data partnerships and the transparent sharing of information are cornerstones of successful planning for our system. I invite all our stakeholders to engage with BCPS as we strive to provide safe learning environments and the best education possible to our students.

For additional information, please visit the BCPS Web site, or call 443-809-4216.

Sincerely,

Superintendent
